# Art. 15 – INSURANCE

As an owner of a sporting license, the Organiser has complied with the current sporting regulations since said license was issued.

Therefore, the Organiser confirms his full acknowledgement that the insurance policy providing 3rd Party cover, mentioned in art.56 of the NSR, complies with the standards in art. 124 of the insurance code and with the minimum legal requirements, and that it does not relieve Participants and Drivers from their responsibilities falling outside of said policy and from additional general and special policy provisions published on the federal website, which can be requested to the Insurance Company.

The entry fee includes third-party liability insurance coverage for the competitor for risks during the circulation of the vehicles during the race, the pre-rally scrutineering and all other phases, as indicated by the organiser and notified or described in bulletins, race management notices, or the rally guide, that are part of the event and are included in the sporting or the social programme (such as transfers to- and from hotels, from the arrival or to the starting points as indicated in the times and distance table, and the road book, in a convoy escorted by the Highway Police, or individually).

The amount covered by the organiser's insurance policy is  $\in$  25.000.000 in case of damage to property or injury of animals or people.

The insurance coverage for competitors beings at the technical scrutineering and terminates at the end of the race or after the competitor retires, is excluded or disqualified. Coverage will end at the closure of the next time check should the competitor retire.

Retired cars that resume the race the following day will not be considered as definitively retired. The insurance coverage doesn't include race activities in the racetracks.

The organiser is not liable for accidents affecting competitors or their race car/cars during the race, even in case of natural calamities, uprisings, demonstrations, vandalism, etc. The competitor and crew member/members will bear all consequences (material, penal and sporting) resulting from any accident of any nature.

Vehicles with support plates and/or any other specific plates provided by the organiser (except for the organiser's own safety and pace cars) are not covered by the insurance policy for the race. These vehicles travel under the sole responsibility of their owners and must be insured by them.

Any accident occurring during the Modena Cento Ore must be reported to the clerk of the course by the competitor, or by a person representing them, as soon as possible, and in any case <u>within 12 hours of the accident.</u>
